# SUPPLEMENTAL INFORMATION

## Language update regarding Veteran’s transcript policy on page 201: Veterans

Transcripts of all prior education and training completed by veterans and eligible persons must be submitted for evaluation to determine credits earned toward the elected objective prior to starting their program of study. If transfer credit is granted, the student’s program of study will be adjusted. The student will be notified of all changes to the student’s program as they occur.

Students seeking academic credit from military training coursework must submit a transcript documenting completion of military training. The Navy and Marine Corps issue the Sailor/Marine American Council on Education Registry Transcript (SMART), the Army issues the Army/American Council on Education Registry Transcript Service (AARTS) transcript and the Coast Guard uses the Coast Guard Transcript for documenting all college-credit worthy training received and evaluated by the American Council on Education (ACE). Carrington evaluates military course equivalency based on the ACE recommendation as listed on the transcript. Credit awarded through ACE evaluation is entered as EC on the transcript and is not calculated into a student’s GPA. No more than 50% of a program’s total credits can be earned through approved nationally recognized tests such as CLEP, DANTES and AP, along with combined credits earned through ACE or TC awards.

## Updates made to the Grading Scale on page 204, adding W (withdrawal): Grading Scale

A four-point scale is used to determine academic standing.

Grade	Quantitative Assessment	Qualitative Assessment	Grade Points
A	90–100% 92–100%*	Excellent	4
B	80–89% 83–91%*	Very Good	3

# SUPPLEMENTAL INFORMATION

† Registered Nursing, Nursing Bridge, Practical Nursing and Dental Hygiene programs

‡ Students must earn a minimum grade of “C” (75% - 79%) in all nursing program courses. In addition, students at the Las Vegas campus must also earn a minimum grade of “C” for BIO 121, BIO 124, and BIO 125.

Certain programs or courses require a minimum grade of “C” to satisfactorily pass a course, which will be noted in the course syllabus.

## **W, WN and WA**

### **(Withdrawal, Withdrawal Not Attempted and Withdrawal Attempted)**

A grade of W (Withdrawal) is issued when a student withdraws or is administratively withdrawn from the institution and courses are not completed by then end of the term. The course counts as credit hours attempted but is not calculated in the CGPA.

Courses dropped prior to the 10% point of the course result in the designator “WN” (Withdrawal Not Attempted). The course does not count as credit hours attempted and is not calculated in the CGPA.

Classes started but not completed due to an authorized not scheduled/temporary out status, will be assigned a designator of “WN”. In both cases, the designator “WN” will appear on the transcript. Tuition is reversed and Title IV funds are returned to the lender.

The designator of “WA” (Withdrawal Attempted) appears on the transcript of students who officially withdraw from a course after 10% of the course and up through 59% of the course is completed. The course counts as credit hours attempted but is not calculated in the CGPA. Tuition for courses with this grade will be reduced to 50% when the student repeats the course.

## **Language regarding Massage Therapy clock hour students has been amended on pages 207 & 214-216:**

For Massage Therapy students starting before July 1, 2016, there were specific attendance, tardiness and excused/unexcused absence make-up policies, which are no longer needed and have been removed from the Academic Catalog due to there no longer being a clock hour Massage Therapy program.

## **Previous Leaves of Absence Policy was amended on page 213: Leaves of Absence**

Students must petition the Program Director in writing for an approved leave of absence (LOA). The signed and dated request must include an explanation of the request, the student’s plan to resolve the issue, permitting the student’s return to class and the requested date of return to the program of study. A leave of absence may be granted if the College determines that the student can be scheduled to return and complete their course of study. Acceptable reasons for requesting a leave of absence include medical situations, personal emergencies, administrative reasons, military obligations or other circumstances beyond the student’s control. Only one leave of absence is generally granted in a 12-month period; however, a well-documented situation may merit the approval of an additional leave. Leaves of absence cannot exceed a cumulative 180 calendar days (from the LDA to the return date) in a 12-month period.

Students are not eligible to take an LOA in the middle of a term/semester but may qualify for a Not Scheduled/Temporary Out status (please see Not Scheduled Policy section). All approved LOAs must begin after the current term/semester ends and before the next begins. Students must agree to return on the first day of the schedule course of a future term/semester (within the maximum of 180 calendar days). Students who do not return on the approved date will be withdrawn.

## **Not Scheduled Policy**

For term-based programs, there are times when some students may not be scheduled for a period of time and be placed on a Not Scheduled/Temporary Out status. If the gap in the schedule is less than 14 days, no action is required. Should the gap in schedule be 14 days or greater, the student must submit a written request to the Student Records Office and the request may be granted if the College determines that the student can be scheduled to return and complete their course of study. Semester-based students may remain non-scheduled until the beginning of the next

# SUPPLEMENTAL INFORMATION

scheduled semester/term. If a student has dropped all remaining courses within a semester, a Return of Title IV calculation is performed and refunds are made as necessary.

Term-based students may only remain in a non-scheduled status for a maximum of 45 calendar days (from the last date of attendance to the return date).

For any student whose return date is outside of the current period, a return of the Title IV funds calculation must be completed based on the last date of attendance (LDA). Students who do not return on the approved date will be withdrawn. A student in Not Scheduled/Temporarily Out status is not eligible for any payment of Title IV funds and/or receipt of any stipend with the exception of post-withdrawal disbursements required from the Return of Title IV Funds calculation.

Language updates were made under Cancellations & Refunds on pages 238-239:

## Carrington Refund Policy

Tuition charges for the enrollment period in which the student withdraws are based on the student's last day of attendance and the resulting percentage of the enrollment period completed, unless other tuition adjustments are appropriate. Enrollment period is defined as a semester, quarter, term or other period in which charges are assessed. Students completing more than 60% of the enrollment period will be charged 100% of the tuition for the enrollment period. Tuition earned by Carrington is determined by dividing the number of calendar days elapsed from the start date to the last day of attendance by the number of calendar days in the enrollment period. The refund shall be the amount the student paid in excess of the tuition earned by Carrington for all attended periods of enrollment less additional charges for registration fees, course resource fees, textbooks, eBooks, supplies and electronic equipment fees. If the student fails to return textbooks, uniforms, supplies or electronic equipment, the College may retain a portion of any payment made by the student to cover the cost of any unreturned items.

Refund calculation examples are available from the Student Finance office upon request. When state refund policies differ from Carrington's refund policy, the student receives the more favorable refund. The amount owed by the student is derived by total hourly charge for instruction (total institutional charge divided by the number of days or program hours) multiplied by the total hours attended by the student. In addition, examples in the catalog should be provided to reflect a refund amount that could be paid in excess by the student based off of these calculations. Each student is charged a non-refundable \$0 Student Tuition Recovery Fund fee.

All refunds are calculated according to the last documented date of attendance and issued within 30 days of the withdrawal notification date (15 days for Nevada students), the date Carrington determines the student is no longer enrolled (whichever is earlier) or as otherwise required by applicable state and/or federal regulations. For a student who fails to return from an authorized leave of absence, the withdrawal date is the student's last date of attendance.

The institution will refund the excess funds in the order that most benefits the student for non-Title IV credit balances based on the student authorization.

## HYPOTHETICAL REFUND CALCULATION

Total charged and received for period of attendance:	
Period of Attendance = 6 weeks (39 days)	\$780.00
\$260 per credit, 3 credit course	
Cost per day (\$780/39) =	\$20.00
Number of days attended =	20

# SUPPLEMENTAL INFORMATION

Percentage of attendance (20/39) =	51%
	If 61% (24 days) or more of the scheduled days in the period of attendance have been scheduled through the last day of attendance no refund will be provided.*
Amount due to the College (daily charge for the course x number of days attended minus any California holidays listed above)	\$400.00
Amount of refund = 19 x \$20.00	\$380.00

## Return of Title IV Funds Policy

According to federal regulations, a federal refund calculation must be performed if a student receiving financial aid withdraws completely from all classes after the start of the enrollment period.

Length of enrollment is equal to the number of calendar days, including weekends and holidays, in the periods in which the student was registered. Breaks of five days or more are excluded.

The withdrawal date is the date the student begins the official withdrawal process – electronically, in writing, in person or by telephone, whichever is earlier – or otherwise officially notifies the institution of his/her intent to withdraw. For students who withdraw without notification, the school may use either the last date of academic attendance or the midpoint of the enrollment period as the withdrawal date. Failure to notify the Financial Aid Office of a withdrawal may result in additional tuition liability.

Return of funds is calculated as follows:

- If the student's percentage of enrollment period completed is greater than 60 percent, the student has earned – and must repay – 100 percent of the federal aid received.
- If the student's percentage of enrollment period completed is 60 percent or less, the calculated percentage of enrollment will be used to determine the amount of aid returned.

Federal aid refunds that result from the Return of Title IV funds calculation are distributed in the following order:

1. Unsubsidized Direct Federal Stafford Loan
2. Subsidized Direct Federal Stafford Loan
3. Federal Perkins Loan\*
4. Federal PLUS Loan
5. Federal Pell Grant
6. Federal Supplemental Education Opportunity Grant (FSEOG)
7. Other Title IV aid programs
8. State grants and/or private or other institutional aid

\* Carrington College cannot make Federal Perkins Loans to new borrowers after September 30, 2017. Please see Student Finance for questions and details about the Federal Perkins Loan.
