PHYSICAL THERAPIST ASSISTANT
The Physical Therapist Assistant program is the first step toward a rewarding career, and at just the right time; jobs for qualified Physical Therapist Assistants are predicted to increase by 4% from 2012 to 2022. You’ll receive training through a combination of classroom study, lab exercises and hands-on practice through offsite clinical experiences, to help prepare you for jobs in hospitals, and more. Topics you’ll learn about include anatomy, physiology, kinesiology and patient communication. You’ll also prepare to take certification and licensure exams. The program can be completed in as few as 20 months.

PHYSICAL THERAPY TECHNOLOGY
Getting a patient back on his or her feet can be a life-changing experience for everyone involved. That’s why Physical Therapy Technology is so exciting, and Carrington College® is just the place to get started. Our Physical Therapy Technology program can prepare you in many ways, combining classroom study, lab exercises and hands-on practice through Carrington’s externship program. The program can be completed in as few as 9 months, preparing you for jobs in hospitals, clinics and more. You’ll learn about subjects such as physiology, pathology, medical terminology and therapeutic exercises.

RESPIRATORY CARE
Carrington College’s Respiratory Care program offers a mix of classroom study, lab exercises and hands-on practice that can provide the training you need in a field that is expected to grow 19% from 2012 to 2022. You’ll learn skills like patient examination and assessment, treatment recommendation and therapeutic intervention that can be put to use in hospitals, clinics and more. Plus, we’ll help you prepare to sit for the registry exam. The program can be completed in as few as 2 years.

VETERINARY ASSISTING
If you love animals, and would like a career working with them, the Veterinary Assisting program is a great place to start. The program can be completed in as few as 9 months and prepares you for work in veterinary offices and hospitals, pet care industries and more. It’s not just classroom study. We also provide plenty of clinical, lab and administrative practice, as well as hands-on work in a veterinary office setting. You’ll learn about animal anatomy and physiology, nursing skills, surgical procedures, animal restraint and office skills, so you’ll be able to help with many aspects of animal care.

**Carrington College® does not guarantee students will successfully pass any certification or licensure exams as a result of completing the program.
