ASPIRE TO BE
SOMETHING GREAT

Classroom Learning is Crucial to Any Education; There’s No Disputing That.

But when it comes to some disciplines, sitting at a desk listening to lectures simply isn’t enough. That’s where we come in. Our Carrington College® Boise campus reflects this in every way. We offer hands-on learning tools that pick up where the books leave off, giving you real-world experience you can’t find in front of a chalkboard.

Fun and Learning Wrapped Into One

Our modern classrooms and labs allow you to learn on high quality technology and equipment. We also provide computer labs with health care industry software and online medical databases and a Student Success Center fully stocked with resources for research and other educational needs.

In addition to such a rich offering of program choices, we also have a dedicated group of instructors who are professionals in their fields that can do more than just teach you in the classroom. They can become mentors, helping to navigate your career path. We work as a team, with everyone working toward your success.

In-Demand Careers Are Waiting For You

We work continually to upgrade our facilities and equipment in our 46,000 square feet of learning space to help provide you an advantage transitioning into the workforce after you have successfully completed your studies.

What’s more, we pride ourselves on a friendly atmosphere, shared among the students, the faculty and the public we serve. It’s a great place to learn and a great place to prepare for your future. If you’re in the area, please stop by and see why we are so enthusiastic about our campus.

We are easy to find, located just north of I-184, near plenty of health care facilities, including Saint Alphonsus Regional Medical Center.
