Medical Assisting  
Medical Office Administration  
Pharmacy Technology

**Associate Degree programs**

Diagnostic Medical Sonography  
Radiologic Technology  
Respiratory Therapy  
Surgical Technology

**Updated the hours for the Mesa Dental Hygiene Clinic (Catalog p. 5, rev. **March 10, 2026**)**

**Mesa Dental Hygiene Clinic**

1300 S. Country Club Dr., Ste. 2  
Mesa, AZ 85210  
Phone: 480 717 3510

**Monday – Thursday**

**7:30 am – 4:00 pm**

**Updated the Programmatic Accreditation section for the Veterinary Technology program (Catalog p. 17, rev. **May 2, 2026**)**

The Veterinary Technology programs at the Ontario, Pleasant Hill, Sacramento, San Jose, San Leandro and Stockton campuses are accredited by the American Veterinary Medical Association. 1931 North Meacham Road, Suite 100, Schaumburg, IL 60173-4360; 800 248 2862,

<http://www.avma.org/professionaldevelopment/education/accreditation/programs/pages/default.aspx>.

The most current information on accreditation and approvals can be found at <https://carrington.edu/accreditation-and-approvals/>.

## **Updated the Programmatic Accreditation section for the Practical Nursing program in Albuquerque (Catalog p. 17, rev. **May 2, 2026**)**

The Practical Nursing program at Carrington College at the campus located in Albuquerque, New Mexico is accredited by the: Accreditation Commission for Education in Nursing (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, Georgia 30326, 404 975 5000.

The most recent accreditation decision made by the ACEN Board of Commissioners for the Practical Nursing program is Initial Accreditation effective 9/5/2024.

View the public information disclosed by the ACEN regarding this program at <https://www.acenursing.org/search-programs/>.

## **Updated the Licenses, Approvals, and Required Disclosures section for California at the Ontario, Rancho Mirage, and Visalia Campuses (Catalog p. 17, rev. **March 10, 2026**)**

Carrington College's Ontario, Rancho Mirage, and Visalia Associate Degree in Nursing/Registered Nursing and Associate Degree in Nursing Advanced Placement Track/Registered Nursing – LVN to RN Bridge programs hold approval from the California Board of Registered Nursing.

PO Box 944210, Sacramento, CA 94244–2100, 916 322 3350, <http://www.rn.ca.gov/index.shtml>.

## **Added the Licenses, Approvals, and Required Disclosures section for California at the Fresno and Temecula Campuses (Catalog p. 17, rev. **March 10, 2026**)**

The Radiologic Technology programs at Carrington College in Temecula and Fresno are approved by the California Department of Public Health – Radiologic Health Branch as schools of Diagnostic Radiologic Technology. The Carrington College Radiologic Technology programs in Temecula and Fresno are ARRT-verified programs.

1255 Imperial Avenue #4, San Diego, CA 92101, 619 338 2493,  
<https://www.cdph.ca.gov/Programs/CEH/DRSEM/pages/rhb.aspx>

## **Updated the Admission Requirements for the Associate Degree in Nursing program (Catalog p. 27, rev. **May 2, 2026**)**

### **Admission Requirements**

In addition to meeting the College's standard admission requirements, prior to starting the program, candidates must:

- Pass the ATI TEAS Admission Assessment with a combined score of 58%. A second attempt is allowed 7 days following the first attempt. A third attempt is allowed 30 days following the second attempt. After failing the third attempt, the wait period is 6 months. At this point in time, a candidate may start the above process over again. Carrington College will not accept results from TEAS tests taken online.
- Attend an Associate Degree in Nursing information session.
- Nevada and Oregon state law requires new students attending courses onsite within these states, to provide proof of immunization prior to attending courses on campus. Please refer to the specific requirements as located in the Nevada and Oregon Immunization Requirements section of this catalog.

## Added the 74 credit Associate Degree in Nursing program for the Albuquerque, Las Vegas, Mesa, Portland, and Reno Campuses (Catalog p. 28, rev. **May 2, 2026**)

## Corrected the Admission Requirements for the Bachelor of Science in Dental Hygiene Degree program (Catalog p. 32, rev. **March 28, 2026**)

### Admission Requirements

Applicants to the Bachelor of Science in Dental Hygiene program must meet the following requirements:

- Hold an Associate of Science in Dental Hygiene from a CODA-accredited program with a minimum of 77 semester credits. An official transcript from an approved accredited institution must be submitted evidencing the earned associate degree and minimum semester credits at the time of enrollment.
  - Applicants whose Associate Degree in Dental Hygiene includes fewer than 77 semester credits and at least 60 semester credits must complete additional coursework prior to enrollment in the BSDH program. To meet the 77 semester credit admission requirement the applicant must complete one or more of the following courses at Carrington College and may select from the courses below:
    - HUMN325 – Cross-Cultural Communication
    - HCA350 – Quality Improvement in Healthcare
    - HCA310 – Healthcare Reimbursement Models
    - HC450 – Healthcare Finance
    - HUM200 – Ethics in Contemporary Society
    - HC403 – Healthcare Law and Ethics
- Hold a current, unencumbered credential licensure as a Registered Dental Hygienist (RDH).
- Own or have unrestricted access to a computer with reliable internet access.

## Updated the Standard Occupational Classification (SOC) number for the Bachelor of Science in Healthcare Administration Degree program (Catalog p. 34, rev. **March 28, 2026**)

Employment positions determined to be in field, to calculate the graduate employment rates required by the state of California, for graduates of the Bachelor of Science in Healthcare Administration program are: Administrative Services Managers (11-3012.00), Bill and Account Collectors (43-3011.00), Billing and Posting Clerks (43-3021.00), Diagnostic Medical Sonographers (29-2032.00), Education Administrators, Postsecondary (11-9033.00), General and Operations Managers (11-1021.00), Health Specialties Teachers, Postsecondary (25-1071.00), Massage Therapists (31-9011.00), Medical and Health Services Managers (11-9111.00), Medical Assistants (31-9092.00), Medical Secretaries and Administrative Assistants (43-6013.00), Nursing Instructors and Teachers, Postsecondary (25-1072.00), Office Clerks, General (43-9061.00), Patient Representatives (29-2099.08), Pharmacy Aides (31-9095.00), Pharmacy Technicians (29-2052.00), Respiratory Therapists (29-1126.00), and Surgical Technologists (29-2055.00). More information on these careers may be found at <https://www.onetonline.org/crosswalk/> using the career title or the Standard Occupational Classification (SOC) number.

**Added the Dental Assisting certificate program (Catalog p. 49, rev. May 2, 2026)**

**Blended**

**Program Requirements** – Bakersfield, Fresno, Temecula, Victor Valley (Hesperia), and Visalia

**Updated the Admission Requirements for the Dental Hygiene program (Catalog p. 56, rev. **May 2, 2026**)**

**Admission Requirements**

In addition to meeting the College’s standard admission requirements, prior to starting the program, candidates must:

- Ontario and Visalia: Complete the Accuplacer entrance examination
- Sacramento and San Jose: Complete a dental hygiene observation including 3 hours of prophylaxis and 3 hours of scaling and root planing
- Mesa, Sacramento, and San Jose: Hold a current American Heart Association or Red Cross Basic Life Support (BLS) for the Healthcare Provider card
- Attend a dental hygiene program information seminar with the program and enrollment services

- Mesa, Sacramento, and San Jose: Provide proof of current immunizations or titers showing immunity as follows
  - Hepatitis B - Proof of 3 doses of vaccine, titer showing positive immunity, or signed declination which may affect eligibility to participate in clinical experiences
  - Measles, mumps, and rubella (MMR) - Proof of 2 doses or titer showing positive immunity
  - Varicella - Proof of 2 doses, positive titer, or healthcare provider documentation of disease history
  - Tetanus, diphtheria, and pertussis (Tdap) - Proof of 1 dose within the previous ten years
  - Tuberculosis (TB) - Negative 2-step Purified Protein Derivative (PPD) skin test (process below)
    - Initial PPD placement
    - Read in 48-72 hours
    - If the initial test is negative, repeat the PPD skin test in 7 – 21 days
    - If one skin test is positive, a follow-up chest x-ray is required to look for active disease  
Documentation of a negative chest x-ray and physician follow-up documenting no evidence of active tuberculosis is required
    - or lab results showing interferon globulin results is required
  - Idaho: Applicants must provide proof of current immunizations listed for Arizona and California (see above), or consent to recurring testing for infection of each of the listed diseases on a schedule consistent with the Center for Disease Control and the Idaho Board of Dentistry
  - COVID-19 vaccination strongly recommended but not required

California applicants must complete the following admission requirements, prior to starting the program.

- Complete the following prerequisite courses at an accredited post-secondary institution, with a minimum grade of C in each course and a cumulative GPA of 2.75. This GPA will be calculated based off the prerequisite courses only.
  - Science courses with wet lab must have been completed within the previous five years.
  - Science courses with wet lab awarded transfer credit for the Carrington College Dental Assisting degree program must have been completed within the previous seven years.

General Education	Science
Oral Communication	Anatomy with wet lab*
Written Communication	Physiology with wet lab*
Psychology	Inorganic chemistry with wet lab
Sociology	Biochemistry or Organic Chemistry with Biochemistry with wet lab
Mathematics (Sacramento and San Jose)	Microbiology with wet lab
Intermediate Algebra (Ontario and Visalia)	Nutrition (Sacramento and San Jose)

\*Ontario and Visalia: If Anatomy and Physiology are taken as a combined course (i.e., A&P1, A&P2), both courses must be taken at the same institution.

## Updated the list of campuses offering the Massage Therapy Certificate program to new students (Catalog p. 89, rev. April 18, 2026)

Massage therapists bring positive well-being to clients via therapeutic and remedial treatments. They also administer other kinds of body conditioning. Massage therapists work in an array of settings, such as spas, franchised clinics, physicians' offices, hotels, and fitness centers. Some massage therapists also travel to clients' homes or offices to give a massage. Others work out of their own homes. Clients view the massage experience as a positive contribution to their overall health.

Carrington College's Massage Therapy certificate program prepares students for entry-level employment as massage therapists and/or to enter private practice. The program covers massage therapy principles and techniques for assessing and addressing clients' problem areas and concerns. Techniques include Swedish massage, sports massage, and deep tissue applications, Shiatsu, chair massage, dry room spa techniques, and a variety of site-specific treatments. Anatomy and physiology, terminology, function, and structure of the body's skeletal, muscular, and internal systems, the ethical, legal, and business concerns of the profession, personal care, communication skills, and practice management and success skills are woven throughout the curriculum. The Massage Therapy program at all locations prepares students for the Massage and Bodywork Licensing Exam (MBLEx)\* through the Federation of State Massage Therapy Boards (FSMTB). The program culminates in a Certificate of Achievement. Graduates of the Certificate of Achievement program are eligible to attain an Associate of Science degree via Carrington College's Health Studies online degree completion option.

### Offered to new students at:

- **Boise**
- **Spokane**

\*Carrington College prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program.

Employment positions determined to be in field, to calculate the graduate employment rates required by the state of California, for graduates of the Massage Therapy program are: Massage Therapists (31-9011.00). More information on this career may be found at <https://www.onetonline.org/crosswalk/> using the career title or the Standard Occupational Classification (SOC) number.

Individuals seeking to enter this career field may be subject to screenings such as, but not limited to, criminal background checks and drug/alcohol testing prior to externship to attain occupational licensure/certification or employment and throughout their careers. CPR certification is required for licensure/certification.

**Updated the Admission Requirements for the LVN to ADN program (Catalog p. 75, rev. May 2, 2026)**

**Admission Requirements**

In addition to meeting the College’s standard admission requirements, prior to starting the program, candidates must:

- Hold a current unencumbered LVN license.
- Have a minimum cumulative grade point average (CGPA) of 3.0.
- Have a minimum 3.0 GPA in the following prerequisite courses:

<b>Course/Subject Area</b>	<b>Credit Hours</b>
Human Anatomy with Lab†	4
General Psychology	3
English Writing and Composition	3
Human Physiology with Lab†	4
Psychology (Developmental/Lifespan)	3
Speech (Interpersonal Communication)	3
General Microbiology with Lab†	4
Sociology (Cultural Diversity)	3
Intermediate Algebra	3

*†Science courses must have been completed within the previous seven years.*

- Pass the ATI TEAS Admission Assessment with a combined score of 58%. A second attempt is allowed seven days following the first attempt. A third attempt is allowed 30 days following the second attempt. After failing the third attempt, the waiting period is six months. At this point in time, a candidate may start the above process over again. Carrington College will not accept results from TEAS test taken online.

**Updated the standard plan of study for the Massage Therapy Certificate program**  
(Catalog p. 90, rev. **March 10, 2026**)

**Added the no longer enrolling statement for the Massage Therapy Certificate program**  
(Catalog p. 90, rev. **April 18, 2026**)

**Updated the program information page the Medical Assisting program (Catalog p. 91, rev. **March 28, 2026**)**

Though medical assistants' job descriptions vary from office to office, they generally have a set of shared duties and tasks. Medical assistants aid doctors by performing basic clinical procedures and handling a variety of administrative duties. They work in medical clinics, private practices, and hospitals to help keep operations running smoothly and efficiently.

The Medical Assisting program at Carrington College is comprised of three educational areas: Clinical, Administrative, and Externship. Students enhance skills such as word-processing, typing, and keyboarding. Throughout the program, professionalism, client relations, critical thinking, adherence to the ethical and legal requirements of a medical practice, and proper communication skills are emphasized. Graduates are prepared to function competently at an entry-level in a variety of medical settings. Online certificate and degree: All courses in this program are offered in an online format, except the in-person externship that is completed at an approved healthcare setting.

The program culminates in a Certificate of Achievement or an Associate of Science. Graduates of the Medical Assisting program at all locations including online are eligible to sit for the National Healthcareer Association (NHA) Certified Clinical Medical Assistant (CCMA) exam\*. Graduates at all locations except online are eligible to sit for the national certification exam to attain the Registered Medical Assistant (RMA) credential\*. Graduates of the program at all campuses except online are eligible to sit for the national exam to attain the Certified Medical Assistant (CMA) credential\*. Credential preparation varies by location.

\*Carrington College prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program.

Employment positions determined to be in field, to calculate the graduate employment rates required by the state of California, for graduates of the Medical Assisting program are: Medical Assistants (31-9092.00), Medical Records Specialists (29-2072.00), and Medical Secretaries and Administrative Assistants (43-6013.00). One additional employment position determined in field to calculate the graduation rates required by the state of California, for graduates of the Medical Assisting Degree program is: Community Health Workers (21-1094.00). More information on these careers may be found at <https://www.onetonline.org/crosswalk/> using the career title or the Standard Occupational Classification (SOC) number.

## Updated the program information page the Medical Billing and Coding program (Catalog p. 105, rev. **March 28, 2026**)

The medical billing and coding field employs professionals who are responsible for the organization and accurate maintenance of patient medical records. These files track data about patients' symptoms, medical history, x-ray and laboratory test results, diagnoses, and healthcare-related treatment. Medical billing and coding professionals ensure that this information is entered into computerized medical record systems. Additionally, medical billing and coding professionals must regularly communicate with physicians to ensure accuracy, clarify diagnoses, and obtain supplementary information to update patients' files. They are often also responsible for the timely and accurate submission of complex insurance documents.

Carrington College's Medical Billing and Coding programs prepares students for entry-level employment in a medical or dental office, clinic, or by independent billing companies. Instruction combines theory and practice to meet the competencies needed to be a medical biller and coder. Students learn to prepare various health claim forms using medical billing software. In doing so, they acquire a working knowledge of human anatomy and medical terminology, as well as comprehension of the legal, ethical, and regulatory standards of medical records management. Students learn to accurately interpret medical records, including diagnoses and procedures of healthcare providers, as well as to document and code the information for submission to insurance companies. This program is offered online and culminates in a Certificate of Achievement or an Associate of Science. All courses in this program are offered in an online format except the in-person externship that is completed at an approved healthcare setting. Graduates of the Medical Billing and Coding certificate or degree program are eligible to sit for the National Healthcareer Association (NHA) Certified Billing and Coding Specialist (CBCS) exam\*\*.

\*\*Carrington College prepares students to take appropriate certificate and licensure exams related to their individual majors.

The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program.

Employment positions determined to be in field, to calculate the graduate employment rates required by the state of California, for graduates of the Medical Billing and Coding program are: Medical Secretaries and Administrative Assistants (43-6013.00), Medical Records Specialists (29-2072.00), Bill and Account Collectors (43-3011.00), Billing and Posting Clerks (43-3021.00), Medical Assistants (31-9092.00), and Office Clerks, General (43-9061.00). More information on these careers may be found at <https://www.onetonline.org/crosswalk/> using the career title or the Standard Occupational Classification (SOC) number.

## Updated the Admission Requirements for the Nursing Bridge program (Catalog p. 115, rev. **May 2, 2026**)

### Admission Requirements

In addition to meeting the College's standard admission requirements, prior to starting the program, candidates must:

- Be at least 18 years of age.
- Pass the ATI TEAS Admission Assessment with a combined score of 58%. A second attempt is allowed seven days following the first attempt. A third attempt is allowed 30 days following the second attempt. After failing the third attempt, the waiting period is six months. At this point in time, a candidate may start the above process over again. Carrington College will not accept results from TEAS test taken online.

- Have a current LPN license for the State of Idaho that is in good standing or a multistate compact LPN license that includes the State of Idaho that is in good standing.
- Submit to and pass a background check, which includes an FBI fingerprint screen and drug screening completed no more than 90 days prior to enrollment (at the applicant's expense).
- Hold a current American Heart Association Basic Life Support (BLS) for the Healthcare Provider card.

## Updated the Admission Requirements for the Practical Nursing program (Catalog p. 138, rev. **May 2, 2026**)

### Admission Requirements

In addition to meeting the College's standard admission requirements, prior to starting the program, candidates must:

- Pass the ATI TEAS Admission Assessment with a combined score of 53%. A second attempt is allowed seven days following the first attempt. A third attempt is allowed 30 days following the second attempt. After failing the third attempt, the waiting period is six months. At this point in time, a candidate may start the above process over again. Carrington College will not accept results from TEAS test taken online.
- The candidate must be 18 years of age.
- Submit to and pass a background checks and drug screening no more than 90 days prior to enrollment (at the applicant's expense). In New Mexico this includes a New Mexico Caregivers screening completed no more than 90 days prior to enrollment and drug screening completed no more than 90 days prior to enrollment (at the applicant's expense).
- Hold a current American Heart Association Basic Life Support (BLS) for the Healthcare Provider card.
- New Mexico: Provide proof of the following immunizations:
  - Provide proof of vaccination series, titer proving immunity, or a signed declination if available for the hepatitis B series. Signed declination or exemption could affect eligibility to participate in clinical experiences.
  - Measles, mumps, and rubella (MMR) - Proof of 2 doses or titer showing positive immunity
  - Varicella - Proof of 2 doses, positive titer, or healthcare provider documentation of disease history
  - Tetanus, diphtheria, and pertussis (Tdap) - Proof of 1 dose within the previous ten years
  - Tuberculosis (TB) - Negative 2-step Purified Protein Derivative (PPD) skin test (process below)
    - Initial PPD placement
    - Read in 48-72 hours
    - If the initial test is negative, repeat the PPD skin test in 7 – 21 days.
    - If one skin test is positive, a follow-up chest x-ray is required to look for active disease. Documentation of a negative chest x-ray and physician follow-up documenting no evidence of active tuberculosis is required
    - or lab results showing interferon globulin results is required

## Added Radiologic Technology Program Section (Catalog p. rev. **March 10, 2026**)

Radiologic Technologists are medical professionals who care for individuals, in conjunction with other healthcare professionals, through the use of diagnostic imaging principles and techniques. Radiologic Technologists work as patient advocates in hospitals, clinics, and private practices, and are educated in human anatomy, patient care, positioning and examination techniques, protocols, and radiation safety. In their work as advocates, Radiologic Technologists perform and evaluate medical imaging exams for those who are seeking medical treatment. Graduates are prepared to take the American Registry of Radiologic Technologists (ARRT) Radiography certification exam\*.

The mission of the Radiologic Technology program is to provide a comprehensive and dynamic educational experience, fostering the development of skilled, compassionate, and ethical radiologic technologists. The College strives to prepare graduates to be leaders in the field, dedicated to improving patient outcomes and advancing the radiologic science professions.

### Offered to new students at:

- **Fresno**
- **Temecula**

\*Carrington College prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program.

Employment positions determined to be in field, to calculate the graduate employment rates required by the state of California, for graduates of the Associate of Science Degree in Radiologic Technology program are: Radiologic Technologists and Technicians (29-2034.00). More information on these careers may be found at <https://www.onetonline.org/crosswalk/> using the career title or the Standard Occupational Classification (SOC) number.

### Program Learning Outcomes

Upon completion of the Radiologic Technology program, graduates will be able to:

- Think critically and problem-solve to evaluate and adjust procedures for a variety of patient populations, analyze images for diagnostic quality, and adapt to varying scenarios of patient care.
- Perform radiographic procedures competently, demonstrating appropriate patient positioning, technical factors, and radiation safety, and produce diagnostic images.
- Act as professional Radiologic Technologists, including making appropriate ethical decisions, abiding by professional practice principles, and maintaining all aspects of certification and licensure.
- Effectively communicate with patients, healthcare team members, and others in both written and oral forms.

### Admission Requirements

In addition to meeting the College's standard admission requirements, prior to starting the program, candidates must:

- Attend an information session
- Submit to a background check that may include fingerprinting, completed no more than 90 days prior to enrollment, the results of which could affect enrollment in the program.
  - Individuals with prior convictions or ethical violations are strongly encouraged to complete the ARRT Ethics Review Pre-Application prior to enrollment.

### Program Requirements – Fresno and Temecula

Approximate time to complete degree program: 96 weeks (not including breaks)

\*Online general education course

† Science-based general education course

2,690 Contact hours

Note: Course descriptions begin on page 199.

### Standards of Progression

All courses in the Radiologic Technology program must be taken in the prescribed sequence. Students cannot progress to the next term if all courses are not completed successfully in the prior term. Students must achieve a passing grade in each clinical course in order to progress to the next clinical course.

“The purpose of the clinical competency requirements is to verify that individuals certified by the ARRT have demonstrated competence performing the clinical activities fundamental to a particular discipline. Competent performance of these fundamental activities, in conjunction with mastery of the cognitive knowledge and skills covered by the certification examination, provides the basis for the acquisition of the full range of procedures typically required in a variety of settings. Demonstration of clinical competence means that the candidate has performed the procedure independently, consistently, and effectively during the course of his or her formal education” (ARRT, 2022). All clinical competencies must be completed prior to graduation, as prescribed by the ARRT.

For radiologic technology courses that combine theory, lab, or clinical components, students must pass all components to earn a passing grade for the course. Students will earn a passing grade for the course when the following academic standards are met:

- A minimum grade of 75%
- A minimum score of 75% on the comprehensive final exam (written and lab)

If a student receives a course grade or final exam grade of less than 75%, they will be required to complete remediation. If the student is unsuccessful in remediation, they face dismissal from the program.

### Clinical Progression Requirements

Students who do not receive appropriate clearance or meet the clinical progression requirements may be unable to complete the required clinical experiences, will be unable to complete the requirements for the Radiologic Technology program, and will be withdrawn. Clinical placements are arranged by the College and are subject to availability. Students may travel up to 100 miles from campus for clinical placements.

The following are additional requirements for this program required prior starting term 2:

- Submit to and pass a drug screen at the institution’s expense.
- Hold a current American Heart Association Basic Life Support (BLS) for the Healthcare Provider card at the student’s expense.
- Provide proof of current immunizations or titers showing immunity at the student’s expense as follows:
  - Measles, mumps, and rubella (MMR) series.
  - Varicella zoster series.
  - Negative TB test results (if test results are more than 12 months old, they must be from a two-step test). If applicants have a history of a positive TB test, a chest x-ray is required.
  - Tetanus, diphtheria, pertussis (Tdap) within the previous 10 years.
  - Hepatitis B series vaccination or signed declination. Signed declination could affect eligibility to participate in clinical rotations.
- Provide proof of annual influenza vaccination, applicable during flu season each year at the student’s expense.

### Supportive technologies and equipment list:

Carrington College uses technologies and equipment to support the learning process, such as patient transfer equipment, high fidelity mannequins and phantoms, patient care supplies and models, EKG machines, AED machines, task trainers, anatomical arms for starting IVs, medication administration models for intramuscular injections, digital imaging systems, and radiographic simulation lab equipment.

## Updated the Admission Requirements for the Vocational Nursing Certificate program (Catalog p. 243, rev. **May 2, 2026**)

### Admission Requirements

Enrollment for the Vocational Nursing certificate program closes on the designated orientation day.

In addition to meeting the College's standard admission requirements, prior to *starting the program*, candidates must:

- Provide evidence of good physical and mental health as determined by a medical exam prior to enrollment.
- Submit to and pass a background check and drug screening completed no more than 90 days prior to the program start.
- Pass the ATI TEAS Admission Assessment with a combined score of 53%. A second attempt is allowed seven days following the first attempt. A third attempt is allowed 30 days following the second attempt. After failing the third attempt, the waiting period is six months. At this point in time, a candidate may start the above process over again. Carrington College will not accept results from TEAS test taken online.
- Carrington College will evaluate prior CNA education for transfer credit eligibility. Please contact the campus Dean of Nursing with any questions.
- Hold a current American Heart Association Basic Life Support (BLS) for the Healthcare Provider card.
- Transfer coursework must have been completed within the previous five years.
- Submit proof of the following immunizations must be provided by students at the students cost:
  - Provide proof of vaccination series, titer proving immunity, or a signed declination if available for the hepatitis B series. Signed declination or exemption could affect eligibility to participate in clinical experiences
  - Measles, mumps, and rubella (MMR) - Proof of 2 doses or titer showing positive immunity
  - Varicella - Proof of 2 doses, positive titer, or healthcare provider documentation of disease history
  - Tetanus, diphtheria, and pertussis (Tdap) - Proof of 1 dose within the previous ten years
  - Tuberculosis (TB) - Negative 2-step Purified Protein Derivative (PPD) skin test (process below)
    - Initial PPD placement
    - Read in 48-72 hours
    - If the initial test is negative, repeat the PPD skin test in 7 – 21 days.
    - If one skin test is positive, a follow-up chest x-ray is required to look for active disease. Documentation of a negative chest x-ray and physician follow-up documenting no evidence of active tuberculosis is required
    - or lab results showing interferon globulin results is required

**Added course descriptions** (Catalog p. 243 - 281, rev. **March 10, 2026, April 18, 2026, and May 2, 2026**)

**CDV198.3C Career Development Seminar**

This course provides students with a comprehensive study of the essential tools to navigate and grow their professional paths. Topics include identifying strengths, setting career goals, building networks, and enhancing job searches. Emphasis is placed on the application of skills in resume writing, interviewing, job searching, and applying for jobs. The essential skills included in this course will allow students to utilize career strategies for long-term success. This is an online course. Prerequisite: Successful completion of all technical coursework and a 2.0 CGPA. This is a credit/no credit course. *3 Credit Hours*

**DA111 Introduction to Dental Assisting**

This theory and lab course introduces dental assisting principles, including dental anatomy, tooth numbering systems, and the dental profession. Students develop basic chairside assisting skills for direct patient care, including operatory setup, instrument identification, ergonomics, and instrument transfer. The course covers infection control, hazardous materials management, OSHA standards, and HIPAA compliance. Students also examine dental team roles, professional communication, and emergency preparedness and response. Students complete required training and may obtain certifications in HIPAA, OSHA, and Basic Life Support (BLS/CPR). *5 Credit Hours*

**DA121 General Anatomy and Delivering Restorative Care**

This theory and lab course covers anatomy and physiology related to local anesthesia, oral embryology, and histology. It also introduces principles of dental esthetics, restorative materials, and various types of restorations. Laboratory sessions provide hands-on practice with items related to restorative procedures. *5 Credit Hours*

**DA131 Patient Management and Laboratory Application**

This theory and lab course introduces the principles of patient care and professional ethics in dentistry, with emphasis on working with patients with special needs, office management, and prosthodontic procedures. Students will explore foundational concepts in pharmacology, microbiology, and disease transmission as they relate to dental practice. The lab provides hands-on experience related to prosthodontics, including impressions, temporary crowns, and dental cements. *5 Credit Hours*

**DA141 Dental Radiology Principles and Practices**

This theory and lab course introduces the fundamentals of dental radiology, including terminology, anatomic landmarks, safety precautions, and radiation protection and monitoring. Students learn X-ray imaging techniques used across dental specialties. Emphasis is placed on infection control, OSHA compliance, and the evaluation of radiographic quality. Laboratory sessions provide hands-on experience exposing and interpreting radiographs and identifying technique errors. *5 Credit Hours*

**DA151: Dental Specialties**

This theory and lab course presents the fundamentals of pediatric dentistry, orthodontics, endodontics, oral surgery, and periodontics. Students gain hands-on experience related to assisting procedures for each of these specialties. *5 Credit Hours*

**DA161: Preventative Clinical Procedures**

This theory and lab course discusses principles of disease prevention and patient education with emphasis on nutrition, caries detection, and oral hygiene instruction. In lab, students will practice coronal polishing, sealant application, fluoride treatments, and oral hygiene techniques. *5 Credit Hours*

**DA191 Dental Assisting Externship**

This externship places students in a professional dental office or clinic under the direct supervision of a licensed dentist or approved clinical supervisor. Students apply the clinical, chairside, radiographic, and patient care skills learned throughout the Dental Assisting program while demonstrating professional communication, ethical conduct, and compliance with infection control, safety, and regulatory standards. Prerequisite: Successful completion of all technical coursework and a 2.0 CGPA. This is a credit/no credit course. *4 Credit Hours*

**DA195 Dental Assisting Capstone**

This culminating course prepares students for dental assisting certification examinations and entry into professional practice. The course reinforces key theory and clinical concepts from across the program while supporting career readiness through resume development, interview preparation, job search strategies, and professional networking. Students will demonstrate exam preparedness, a clear certification and career plan, and job readiness for entry-level dental assisting roles. Prerequisite: Successful completion of all technical coursework and a 2.0 CGPA. This is an online course. This is a credit/no credit course. *2 Credit Hours*

**MA190 Medical Assisting Externship**

This supervised, hands-on externship places students in a clinical setting. Under the direct guidance of a site supervisor, students apply the clinical and administrative skills learned in prior courses. Typical activities may include patient intake and vital signs, electronic health record (EHR) documentation, instrument processing and infection control, scheduling, and front-office support, as allowed by the site. Students must maintain professional conduct and follow Carrington College and site policies, comply with state and federal rules (HIPAA, OSHA), protect patient confidentiality, and complete required logs and evaluations. Prerequisite: Successful completion of all technical coursework and a 2.0 CGPA. This is a credit/no credit course. *4 Credit Hours*

**MAP92.3 Applied Theory: Integrated Learning and Practice**

In this course, students demonstrate their understanding of key clinical and administrative concepts, preparing students to proficiently navigate both clinical and administrative roles in their future careers. This is an online course. *3 Credit Hours*.

**MOA190 Medical Office Administration Externship**

This supervised, hands-on externship places students in a clinical setting. Under the direct guidance of a site supervisor, students apply the administrative and professional skills learned in prior courses. Students must maintain professional conduct and follow Carrington College and site policies, comply with state and federal rules (HIPAA, OSHA), protect patient confidentiality, and complete required logs and evaluations. Prerequisite: Successful completion of all technical coursework and a 2.0 CGPA. This is a credit/no credit course. *4 Credit Hours*

**MT1.5 Massage Therapy Theory 1**

The anatomy and physiology of the skeletal and muscular systems are presented, as are the bones and major muscles of the back and pelvic and shoulder girdles. Professional development skills, including ethics, self-care and practice management are also covered. *3 Credit Hours*

**MT2.5 Massage Therapy Theory 2**

The anatomy and physiology of the respiratory, circulatory and cardiovascular systems are presented, as are the bones and major muscles of the head, face, neck, chest and abdomen. Professional development skills, including ethics, self-care and practice management are also covered. *3 Credit Hours*

**MT3.5 Massage Therapy Theory 3**

Sports theory and the anatomy and physiology of the integumentary (skin, hair, and nails) and nervous systems are presented, as are the bones and major muscles of the legs and feet. Professional development skills including ethics, self-care, practice management and success skills are further covered. *3 Credit Hours*

**MT4.5 Massage Therapy Theory 4**

The anatomy and physiology of the endocrine, lymphatic and immune systems are presented, as are the bones and major muscles of the arms, forearms, and hands. Professional development skills including ethics, self-care and practice management are explored further in this course. *3 Credit Hours*

**MT5.5 Massage Therapy Theory 5**

Shiatsu theory and the anatomy and physiology of the digestive, urinary and reproductive systems are presented. Professional development skills, including ethics, self-care, and practice management, are covered. *3 Credit Hours*

**MT101.5 Massage Applications and Lab 1**

This course presents elements of Swedish massage as applied to the body. Techniques for special populations are also covered. Student skills are developed through participation, application, and practice of each of these techniques. *2 Credit Hours*

**MT102.5 Massage Applications and Lab 2**

This course presents elements of deep-tissue and trigger-point technique as applied to the body. Techniques for special populations are also covered. Student skills are developed through participation, application, and practice of each of these techniques. *2 Credit Hours*

**MT103.5 Massage Applications and Lab 3**

Sports massage, assessment, core strengthening, and movement therapies are taught in this course. Student skills are developed through participation, application, and practice of each of these techniques. *2 Credit Hours*

**MT104.5 Massage Applications and Lab 4**

Chair massage and introductory reflexology, aromatherapy and dry room spa techniques are presented during this course. Student skills are developed through participation, application, and practice of each of these techniques. *2 Credit Hours*

**MT105.5 Massage Applications and Lab 5**

Shiatsu massage is taught in this course. Other eastern modalities are demonstrated and discussed. Student skills are developed through participation, application, and practice of each of these techniques. *2 Credit Hours*

**MT160.5 Professional Practice and Business Foundations**

This theory and lab course integrates professional ethics, laws and regulations, scope of practice, and therapeutic communication with business planning, operations, and marketing for massage therapy practice. Health emergency preparedness topics are also reviewed. Students perform applications such as Swedish strokes, joint mobilizations, and stretching while using sound body mechanics, draping, and standard precautions. *5 Credit Hours*

**MT195 Massage Therapy Capstone**

This course prepares students for certification, licensure, and entry into professional practice. Students will identify strengths and gaps of certification exam domains and build a targeted study plan with test-taking strategies. Career readiness is developed through employer research and professional communication tasks. By the end of the course, students will demonstrate exam preparedness, a clear certification and licensure plan, and job-readiness for entry-level massage therapy practice. This is a credit/no credit course. *5 Credit Hours*

**NUR255 Medical-Surgical Nursing II**

In this course, an expanded emphasis is placed on the application of the nursing process, therapeutic communication, critical thinking, and advanced nursing skills in promoting the health of adult and geriatric patients experiencing multiple acute and chronic health problems with predictable outcomes. Collaboration with members of the multidisciplinary healthcare team to develop the patient's plan of care is incorporated. Nutrition, growth and development, pharmacology and pathophysiology are integrated throughout the course. Experience is gained in the healthcare setting to enhance the development of clinical competency in promoting the health of patients within a family and community context. Also emphasized is the acquisition of knowledge, skills and abilities needed to function as a professional provider of patient centered care, professional member within the discipline, professional member of a healthcare team, and patient safety advocate. The course has a theory and clinical component. Prerequisite: NUR130 *6 Credit Hours*

**NUR257 Medical-Surgical Nursing IV**

This course builds on previously learned concepts and theories to develop students' ability to apply principles of nursing judgement in the provision of safe, quality patient centered care for patients and their families across the lifespan with unpredictable outcomes or who are demonstrating a critical change in health status. Patient teaching and collaboration among the nurse, patients and family members are covered. Experience is gained in acute-care, non-acute-care and/or community health settings to develop clinical competency. Emphasis is placed on acquisition of knowledge, skills and attitudes related to the role as a professional provider of patient centered care, professional member within the discipline, professional member of a healthcare team, and patient safety advocate. The course has a theory and clinical component. Prerequisite: NUR251 *6 Credit Hours*

**RAD100C Clinical Practice I**

Students will participate in clinical rotations at hospitals, urgent care facilities, imaging facilities, private practices, and/or surgical centers. They will be assessed for patient care, education and communication, positioning and procedures, radiation safety, and professionalism. Students will work under direct supervision until competency is attained and documented. Clinical placements are arranged by the College and are subject to availability. Prerequisite: Successful completion of all previous coursework. *7 Credit Hours*

**RAD110 Patient Care in Radiologic Technology with Lab**

This course provides foundational concepts of patient care related to medical imaging. Key concepts covered include methods of patient assessment, effective communication, diverse patient populations, and infection control. Professionalism, emergency scenarios, and pharmacology of contrast agents will also be explored. *3 Credit Hours*

**RAD120 Radiographic Positioning and Procedures I**

This course will provide routine radiographic positioning principles and radiographic anatomy in the following: upper extremity, shoulder girdle, bony thorax, and the respiratory system. Fundamental concepts include patient preparation and education, effective communication, and adaptive practices for diverse patient populations. This course is supplemented with a lab. *3 Credit Hours*

**RAD120L Radiographic Positioning and Procedures I Lab**

This course supplements the lecture course and provides students with the skills necessary to position patients for radiographic examinations of the upper extremity, shoulder girdle, bony thorax, and respiratory system. Students will demonstrate simulations including patient preparation and education, effective communication, and adaptation to diverse patient populations in radiographic positioning. *2 Credit Hours*

**RAD125 Radiation Physics and Instrumentation**

This course provides the foundational elements of medical imaging, including equipment, x-ray production, interactions with matter, image production, and an introduction to fluoroscopy. Special attention is given to radiation protection for personnel and patient applications. *3 Credit Hours*

**RAD130 Radiographic Positioning and Procedures II**

This course will provide routine radiographic positioning principles and radiographic anatomy in the following: lower extremity, pelvic girdle, vertebral column, and abdomen. Fundamental concepts include patient preparation and education, effective communication, and adaptive practices for diverse patient populations. This course is supplemented with a lab. Prerequisite: Successful completion of all previous coursework. *3 Credit Hours*

**RAD130L Radiographic Positioning and Procedures II Lab**

This course supplements the lecture course and provides students with the skills necessary to position patients for radiographic examinations of the lower extremity, pelvic girdle, vertebral column, and abdomen. Students will demonstrate simulations including patient preparation and education, effective communication, and adaptation to diverse patient populations in radiographic positioning. Prerequisite: Successful completion of all previous coursework. *2 Credit Hours*

**RAD135 Digital Image Production and Exposure with Lab**

This course provides all elements of digital radiographic image production and exposure factors. Topics covered include image acquisition, image quality factors, errors, processing and display, and informatics with archiving. Laboratory activities are included to supplement lecture topics. Prerequisite: Successful completion of all previous coursework. *4 Credit Hours*

**RAD140 Radiographic Positioning and Procedures III**

This course will provide adaptive radiographic positioning principles and radiographic anatomy pertaining to the skull, mobile imaging applications, trauma, surgical, and fluoroscopic procedures. Fundamental concepts include patient preparation and education, effective communication, and adaptive practices for diverse patient populations. This course is supplemented with a lab. Prerequisite: Successful completion of all previous coursework. *3 Credit Hours*

**RAD140L Radiographic Positioning and Procedures III Lab**

This course supplements the lecture course and provides students with the skills necessary to position patients for radiographic and fluoroscopic exams in the following categories: skull, mobile imaging, trauma, surgery, and interventional procedures. Students will demonstrate simulations including patient preparation and education, effective communication, and adaptation to diverse patient populations in radiographic positioning. Prerequisite: Successful completion of all previous coursework. *3 Credit Hours*

**RAD145 Radiation Biology and Safety**

This course provides the cellular, molecular, and systemic effects of radiation, with a critical focus on radiation protection. Topics include effects of ionizing radiation exposure, radiosensitivity and radioresistance, regulatory agencies, and dose-response models. Prerequisite: Successful completion of all previous coursework. *3 Credit Hours*

**RAD150 Image Analysis and Radiographic Pathology**

This course provides the skills necessary to evaluate radiographic images effectively, assess quality, alter positioning and technical factors, and produce diagnostic images. Radiographic pathology is incorporated through case studies, presentations, and image analyses. Prerequisite: Successful completion of all previous coursework. *3 Credit Hours*

**RAD155 Venipuncture for Radiologic Technologists with Lab**

This course will provide the theory and skills necessary to perform venipuncture for the purpose of contrast administration. Students must successfully perform ten venipunctures on a mannequin arm in the laboratory portion. Ten hours of instruction are dedicated to anatomy and physiology of venipuncture sites, equipment, and solutions, puncture techniques, intravenous line establishment, hazards and complications, post-puncture care, and first aid with anaphylaxis management. Prerequisite: Successful completion of all previous coursework. *3 Credit Hours*

**RAD160 Radiologic Technology Capstone**

This course reviews the critical concepts of medical terminology, patient care, radiation physics and protection, and radiation physics and instrumentation, in preparation for successful passing of the American Registry of Radiologic Technologists (ARRT) Radiography examination. Prerequisite: Successful completion of all previous coursework. *3 Credit Hours*

**RAD200C Clinical Practice II**

Students will participate in clinical rotations at hospitals, urgent care facilities, imaging facilities, private practices, and/or surgical centers. They will be assessed for patient care, education and communication, positioning and procedures, radiation safety, and professionalism. Students will work under direct supervision until competency is attained and documented. Clinical placements are arranged by the College and are subject to availability. Prerequisite: Successful completion of all previous coursework. *10 Credit Hours*

**RAD300C Clinical Practice III**

Students will participate in clinical rotations at hospitals, urgent care facilities, imaging facilities, private practices, and/or surgical centers. They will be assessed for patient care, education and communication, positioning and procedures, radiation safety, and professionalism. Students will work under direct supervision until competency is attained and documented. Clinical placements are arranged by the College and are subject to availability. Prerequisite: Successful completion of all previous coursework. *12 Credit Hours*

**RAD400C Clinical Practice IV**

Students will participate in clinical rotations at hospitals, urgent care facilities, imaging facilities, private practices, and/or surgical centers. They will be assessed for patient care, education and communication, positioning and procedures, radiation safety, and professionalism. Students will work under direct supervision until competency is attained and documented. Opportunities for advanced imaging and/or therapeutic technologies will be provided. Clinical placements are arranged by the College and are subject to availability. Prerequisite: Successful completion of all previous coursework. *12 Credit Hours*

**SOC1 Introduction to Sociology**

This course is a survey of social structure, theory, and its implications for individuals in a dynamic view of the environment. Cultures, family, organizations, groups, ethnic and political influences, and politics are the topics covered. *3 Credit Hours*

**VAC111T.5 Introduction to the Veterinary Hospital**

This course covers anatomy and physiology of the muscular system, skeletal system, cardiovascular system and blood, lymph, and immunity. The student will study microbiology, parasitology, and zoonotic diseases, in addition to identification and administration of associated vaccines. Related medical vocabulary and terminology are covered. Principles and practices of radiography are discussed. A study of abbreviations, acronyms and symbols is included. In addition, the student will learn about and practice veterinary front office procedures, safety procedures and hospital sanitation. *3 Credit Hours*

**VAC111L.5 Hospital Practices**

This course uses hands on methods for students to explore animal body systems and basic hospital procedures. Students will practice taking patient histories and performing physical examinations, injections related to vaccinations, radiography safety and positioning, parasitology, and microbiology. *2 Credit Hours*

**VAC112T.5 Veterinary Laboratory**

This course covers anatomy and physiology of the renal, urinary, reproductive, and endocrine systems and the related medical vocabulary and terminology. Students will learn laboratory techniques including urinalysis, hematology, serology, and cytology. A study of abbreviations, acronyms and symbols is included. *3 Credit Hours*

**VAC112L.5 Laboratory Procedures**

This course allows students hands on practice preparing cytology slides, examining various cytological samples, performing blood chemistries, PCV's and differentials, urinalysis, and dissection/necropsy, along with preparing samples for submission. *2 Credit Hours*

**VAC113T.5 Animal Nursing and Care**

This course introduces basic concepts pertaining to the integumentary system, nervous system, and special senses. Also covered is anatomy and physiology for avian and exotic species. Basic nursing practices will be covered that include animal behavior, breed identification, handling and restraint for canine, feline, large animal, land equine species. *3 Credit Hours*

**VAC113L.5 Veterinary Assisting Techniques**

In this course, students gain hands-on experience with skin assessment and treatments, handling, and restraint procedures, large animal, equine, small mammal, and exotic-species procedures. *2 Credit Hours*

**VAC114T.5 Surgical Nursing and Specialty Care**

This course introduces students to practical skills essential to the veterinary assistant. The course includes surgical nursing, cardiopulmonary cerebral resuscitation (CPCR) and other emergency procedures, digestive system including dental care and nutrition and the respiratory system. *3 Credit Hours*

**VAC114L.5 Surgical and Specialty Procedures**

This course uses hands on practice for students to gain technical skills in surgical assisting techniques, cardiopulmonary cerebral resuscitation (CPCR), dental care, nutrition, and fecal analysis. *2 Credit Hours*

**VAC115T.5 Pharmacy and Pharmacology Calculations**

This course introduces students to pharmacology, medical math, inventory, and client communication. *3 Credit Hours*

**VAC115L.5 Pharmacy Practice**

This course uses hands-on practice to understand and fill prescriptions, calculate dosages for in-patient treatments and medication administered at home and dispensing medications to clients. *2 Credit Hours*

**VAC161.5 Veterinary Practice Fundamentals**

This course introduces the roles and responsibilities of veterinary assistants and technicians in common veterinary practice settings. Students examine the legal and ethical principles governing veterinary medicine and develop foundational skills in medical terminology, infection control, and disinfection procedures. Emphasis is placed on safe animal-handling techniques and maintaining a clean, safe clinical environment. Students also explore front office and administrative operations, including communication and basic office management tasks. This course prepares students to support veterinary healthcare teams effectively in both clinical and administrative settings. *5 Credit Hours*

**Updated Course Description** (Catalog p. 254, 262, 267, 268, rev. **March 28, 2026 and May 2, 2026**)

**PHM130 Pharmacy Administration and Business Operations**

This theory and lab course prepares students for administrative and financial responsibilities related to pharmacy practice. Topics include patient communication, insurance and billing procedures, prior authorizations, and reimbursement systems. Students also learn pharmacy business math, inventory management, and drug recall processes. Laboratory training emphasizes practical skills such as processing insurance claims and billing procedures, completing administrative operations, and managing pharmacy records. *5 Credit Hours*

**PHM190 Pharmacy Technology Externship**

This externship places students in a professional pharmacy setting under the supervision of a licensed pharmacist or approved supervisor. Students apply the technical, operational, and patient care skills acquired throughout the program while performing pharmacy technician duties. Emphasis is placed on professional conduct, accuracy, ethical behavior, and compliance with institutional policies and applicable state and federal pharmacy laws and regulations. Prerequisite: Successful completion of all technical coursework and a 2.0 CGPA. This is a credit/no credit course. *2 Credit Hours*

**PTA297 Licensure Review**

This course prepares students to take the National Physical Therapy Examination (NPTE) for physical therapist assistants. Students review critical concepts and State Specific Revised Statutes and Codes and complete a full-length practice examination. Students will also review clinical concepts and skills developed throughout the program. This review will include hands-on practice, clinical application, case studies, emergent procedures, and will help to prepare the student for their terminal clinical experiences in PTA258 and PTA289. Prerequisite: Successful completion of all term 3 courses. This is a credit/no credit course. *3 Credit Hours*

**RCP160 Critical Care Principles of Respiratory Care**

The focus of this course is management of the airway and mechanical ventilation. Topics include endotracheal intubation, advanced airway management, resuscitation devices, invasive and non-invasive ventilation, tracheostomy care, and initiation, monitoring, managing, and discontinuation of mechanical ventilation. Students will apply hemodynamics to positive pressure ventilation. A minimum grade of C is required to pass this course. *4 Credit Hours*

**RCP170 Neonatal and Pediatric Respiratory Care**

The focus of this course is special applications in respiratory care, and neonatal and pediatric respiratory care. Topics include neonatal and pediatric anatomy, physiology, and pathology. Specialized diagnostics and certifications also occur during this course. A minimum grade of C is required to pass this course. *6 Credit Hours*

**Added start dates for the General Education and Training Courses** (Catalog p. 196, rev. **May 2, 2026**)

**Dates for five week general education courses**

April 13, 2026 – May 15, 2026  
 May 4, 2026 – June 5, 2026  
 May 18, 2026 – June 19, 2026  
 June 22, 2026 – July 24, 2026

**October 5, 2026** – November 6, 2026 (five week term)

**November 9, 2026** – December 11, 2026 (five week term)

November 9, 2026 – December 18, 2026 (six week term)

**December 14, 2026** – January 22, 2027 (five week term)

December 14, 2026 – January 29, 2027 (six week term)

**Corrected the start and term dates for the Vocational Nursing Certificate program at San Jose (Catalog p. 294, rev. **March 10, 2026**)**

#### *San Jose*

**January 26, 2026** – May 15, 2026

May 25, 2026 – September 11, 2026

September 14, 2026 – January 8, 2027

**Added Radiologic Technology to the Admission Testing section Catalog p. 300, rev. March 9, 2026)**

## Admission Testing

Applicants must pass the Wonderlic Scholastic Level Exam (SLE) for admission as administered by the College. Any additional admission requirements are noted on the program page.

Any applicant achieving a Wonderlic SLE score of 12 or higher may apply for the following programs:

- Dental Assisting Certificate
- Massage Therapy Certificate
- Medical Administrative Assistant Certificate
- Medical Assisting Certificate
- Medical Assisting Degree
- Medical Billing and Coding Certificate
- Medical Billing and Coding Degree
- Medical Office Administration Certificate
- Pharmacy Technology Certificate
- Veterinary Assistant Certificate
- Veterinary Assisting Certificate

A minimum Wonderlic SLE score of 15 is required for admission to the following programs:

- Associate Degree in Nursing
- Bachelor of Science in Healthcare Administration (entrance with no certificate or no associate degree)
- Dental Hygiene Degree
- Diagnostic Medical Sonography Degree
- Physical Therapist Assistant Degree
- Practical Nursing Certificate
- Radiologic Technology Degree
- Surgical Technology Degree
- Veterinary Technology Degree
- Vocational Nursing Degree
- Vocational Nursing Certificate

A minimum Wonderlic SLE score of 18 is required for admission to the following programs:

- Respiratory Therapy Degree

The following programs are not required to complete a Wonderlic SLE test for admission as the applicant has demonstrated academic ability based on the program admission requirements:

- Bachelor of Science in Dental Hygiene Degree
- Bachelor of Science in Healthcare Degree Administration (entrance with a certificate or an associate degree)
- Bachelor of Science in Nursing Degree
- Bachelor of Science in Respiratory Therapy Degree
- Dental Assisting (Science Emphasis) Degree
- Health Studies Degree
- LVN to ADN (Certificate and Degree)
- Registered Nursing (Certificate)
- Nursing Bridge Degree
- Vocational Nursing (Science Emphasis) Degree

**Updated the Grading Scale to Include Radiologic Technology (Catalog p. 307, rev. March 10, 2026)**

## Grading Scale

A four-point scale is used to determine academic standing.

Grade	Quantitative Assessment	Qualitative Assessment	Grade Point
A	90-100%	Excellent	4
B	80-89%	Very Good	3
C	70-79% 75-79%*	Satisfactory	2
D	60-69% 60-74%*		1
F	Below 60%	Failing	0

\*Minimum course passing grade requirement of 75% for:

- 1) Dental Hygiene (Boise and Mesa) courses
- 2) Dental Hygiene (Boise and Mesa) science-based and general education courses
- 3) Nursing courses
- 4) Nursing science-based general education courses
- 5) Science Emphasis Degree science-based general
- 6) Vocational Nursing Associate degree PSY1 General Psychology
- 7) Radiologic Technology courses

**Updated the Massage Therapy and Veterinary Assisting Certificate program (Catalog p. 312, rev. March 10, 2026)**

**Updated the Dental Assisting Certificate program (Catalog p. 312, rev. May 2, 2026)**

## Term Lengths and Weeks in Program

Certificate Programs	Campus Based	Blended	Online	Weeks In Term	Total Weeks
Dental Assisting (Bakersfield, Fresno, Temecula, Victor Valley, and Visalia)		X		5/6	36
Dental Assisting (Bakersfield, Fresno, Temecula, Victor Valley, and Visalia)	X			5/10/15	45
Dental Assisting (Albuquerque, Boise, Glendale Learning Center, Mesa, Las Vegas, Phoenix, Pleasant Hill, Portland, Sacramento, San Jose, San Leandro, Spokane, Stockton, and Tucson)		X		6	36
Electrical Technology (Phoenix Education Center)		X		6	36
Electrical Technology (Sacramento)		X		5/10	40

Heating, Ventilation, Air Conditioning, and Refrigeration	(Phoenix Education Center)	X			5/10	40
LVN to ADN	(Sacramento)	X			16	32
Massage Therapy	(Albuquerque, Boise, Spokane, Stockton, and Tucson)	X			5/6	36
Medical Administrative Assistant	(Sacramento)			X	6	36
