

Carrington College Graduate Employment Outcome Disclosures

Last Updated 10/13/2017

The information below describes the placement rates and other employment outcomes that Carrington College has calculated or reported in the last 12 months to fulfill state or accreditor requirements, including the methodology, timeframes and sources of information associated with the figures. Please note that the relevant definitions, methodologies and timeframes vary by state/accreditor.

Table of Contents

Employment Outcomes Reported to Accreditors	3
Accreditation Commission for Education in Nursing (ACEN)	3
Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC-STSA)	5
Accrediting Bureau of Health Education Schools (ABHES)	6
Accrediting Commission for Community and Junior Colleges (ACCJC/WASC)	7

Employment Outcomes Reported to Accreditors

Accreditation Commission for Education in Nursing (ACEN)

Carrington College is required to report employment data to ACEN. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below for AZ Phoenix East, ID Boise, and NV Reno were reported to ACEN in December 2016. The placement rate was calculated according to the methodology prescribed by ACEN. Employment data was based on the information available to Carrington College as of November 2016. The denominator of the rate was defined as all students who graduated between 07/01/2015 and 06/30/2016. The numerator of the rate was defined as all students in the denominator who were employed in nursing within 6-9 months after graduation and includes those who returned to formal education. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

The outcomes below for NM Albuquerque were reported to ACEN in August 2017. The placement rate was calculated according to the methodology prescribed by ACEN. Employment data was based on the information available to Carrington College as of March 2017. The denominator of the rate was defined as all students who graduated between 07/01/2013 and 06/30/2016. The numerator of the rate was defined as all students in the denominator who were employed in nursing within 6-9 months after graduation and includes those who returned to formal education. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC-STSA)

Carrington College is required to report employment data to ARC-STSA. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to ARC-STSA in May 2017. The placement rate was calculated according to the methodology prescribed by ARC/STSA. Employment data was based on the information available to Carrington College as of April 2017. The denominator of the rate was defined as all students who graduated between 08/01/2014 and 07/31/2015. The numerator of the rate was defined as all students in the denominator who within one year of graduation had been placed in field or a directly related field of surgical technology, in active military duty, or continuing their education. Placement in a related field requires use of knowledge and skills acquired via the curriculum offered in the surgical technology program. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

EMPLOYMENT OUTCOME DATA

Location	Program	Total Graduates	Continued Education	Active Duty Military	Placed in the Field of Surgical Technology or a related Field	Placed in the Field of Surgical Technology or a Related Field AND Continued Education	Existing in-Field Employment	New in-Field Employment	Graduate Placement Rate
CA Citrus Heights	Surgical Technology, Certificate	29	1	0	24	0	0	24	86%
CA San Jose	Surgical Technology, Certificate	15	0	0	12	0	0	12	80%

Accrediting Bureau of Health Education Schools (ABHES)

Carrington College is required to report employment data to ABHES. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to ABHES in December 2016. The placement rate was calculated according to the methodology prescribed by ABHES. Employment data was based on the information available to Carrington College as of November 2016. The denominator of the rate was defined as all students who graduated between 07/01/2015 and 06/30/2016, except those who have health exclusions, continue their education, have active duty military, are incarcerated, or are deceased. The numerator of the rate was defined as all students in the denominator who found employment and were employed for at least 15 days as of November 2016. A graduate is considered placed when they are in a position where the majority of the job functions must require the use of the skills and knowledge acquired through successful completion of the training program. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Accrediting Commission for Community and Junior Colleges (ACCJC/WASC)

Carrington College is required to report employment data to ACCJC/WASC. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to ACCJC/WASC in March 2017. ACCJC/WASC did not define a placement rate methodology so Carrington College's methodology was used. Employment data was based on the information available to Carrington College as of March 2017. The denominator of the rate was defined as all students who graduated between 07/01/2012 and 06/30/2015 except those who entered another postsecondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who found new in field employment as of December 1st occurring immediately after the graduation timeframe. The employment rate was calculated by dividing the numerator by the denominator. Programs with less than 10 graduates in a fiscal year were not reported. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

*"Number of Graduations Eligible for Employment" was defined as New In-Field Employment. Existing In-Field Employment was not counted so is shown as not applicable.

American Society of Health-System Pharmacists (ASHP)

Carrington College is required to report employment data to ASHP. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to ASHP in December 2016. ASHP did not define a placement rate methodology so Carrington College's methodology was used. Employment data was based on the information available to Carrington College as of December 2016. The denominator of the rate was defined as all students who graduated between 09/01/2015 and 08/31/2016, not counting those who entered another postsecondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who had existing in field employment or found new in field employment as of 12/01/2016. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

EMPLOYMENT OUTCOME DATA

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to Carrington College in June 2017. The placement rate was calculated according to the methodology prescribed by CoARC. Employment data was based on the information available to Carrington College as of June 2017. The denominator of the rate was defined as all students who graduated between 01/01/2014 and 12/31/2016. Students enrolled full- or part-time in another degree program or serving in the military are reported, however these students are still included in the denominator. The numerator of the rate was defined as all students in the denominator who, within the three year reporting period, are employed utilizing skills within the scope of practice of the respiratory care profession (i.e., full-time, part-time, or per-diem). The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

EMPLOYMENT OUTCOME DATA

Location	Program	Total Graduates	Number of Graduates Enrolled Full- or Part-Time in Another Degree Program	Number of Graduates Serving in Military	Number of Graduates Employed in-Field	Existing in-Field Employment	New in-Field Employment	% of Available Graduates Employed in Field
AZ Phoenix East	Respiratory Care, Associate	92	1	0	59	0	59	61%
CA Pleasant Hill	Respiratory Care, Associate	90	1	0	46	0	46	51%
NV Las Vegas	Respiratory Care, Associate	111	1	0	88	0	88	79%

Commission on Accreditation in Physical Therapy Education (CAPTE)

Carrington College is required to report employment data to CAPTE. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to CAPTE in December 2016. The placement rate was calculated according to the methodology prescribed by CAPTE. Employment data was based on the information available to Carrington College as of November 2016. The denominator of the rate was defined as all students who graduated between 01/01/2015 and 12/31/2015, except those who did not take or pass the licensure exam. The numerator of the rate was defined as all students in the denominator who completed their program in the calendar year specified and sought employment within one year of graduation. Only in-field new employment is counted as positive placement. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

EMPLOYMENT OUTCOME DATA

Location	Program	Total Graduates	Number of graduates that did not take or pass the licensing exam	Those who graduated last year and who sought employment in physical therapy within 12 months of graduating	Those who graduated last year and who sought employment were employed in physical therapy within 12 months of graduating	Existing in-Field Employment*	New in-Field Employment	Employment Rate
AZ Mesa	Physical Therapist Assistant, Associate	16	2	14	13	n/a	13	93%
CA Pleasant Hill	Physical Therapist Assistant, Associate	19	1	18	15	n/a	15	83%
ID Boise	Physical Therapist Assistant, Associate	21	3	18	18	n/a	18	100%
NV Las Vegas	Physical Therapist Assistant, Associate	27	3	19	17	n/a	17	89%

* "Those who graduated last year and who sought employment were employed in physical therapy within 12 months of graduating" was defined as New In-Field Employment. Existing In-Field Employment was not counted so is shown as not applicable.

Commission on Dental Accreditation (CODA)

Carrington College is required to report employment data to CODA. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to CODA in October 2016. CODA required only summary data for graduates. A placement rate was not reported. Employment data was based on the information available to Carrington College as of September 2016. Data was reported for all students who graduated between 09/01/2015 and 08/31/2016. Employment counts include all graduates who obtained employment as of September 2016. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Joint Review Commission on Education in Radiologic Technology (JRCERT)

Carrington College is required to report employment data to JRCERT. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to JRCERT in October 2016. The placement rate was calculated according to the methodology prescribed by JRCERT. Employment data was based on the information available to Carrington College as of September 2016. The denominator of the rate was defined as all students who graduated between 01/01/2011 and 12/31/2015, except those who failed to communicate with program officials regarding employment status after multiple attempts, or were unwilling to seek employment that requires relocation, or were unwilling to accept employment due to salary or hours, or were on active military duty, and/or were continuing education. The numerator of the rate was defined as all students in the denominator who found in-field employment within twelve months of graduation. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Employment Outcomes Reported to States

California Board of Registered Nursing (CA BRN)

Carrington College is required to report employment data to CA BRN. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to CA BRN in November 2016. The placement rate was calculated according to the methodology prescribed by CA BRN. Employment data was based on the information available to Carrington College as of November 2016. The denominator of the rate was defined as all students who graduated between 08/01/2015 and 7/31/2016, except those who returned to formal education. The numerator of the rate was defined as all students in the denominator who are employed in nursing in California. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

EMPLOYMENT OUTCOME DATA

Location	Program	Total Graduates	# Returned to Formal Education	# Employed in Nursing in California	Total Graduates Available for Employment	# Employed in Nursing in California	# of grads employed in field in existing employment	# of grads employed in field in new employment	Employment Rate

Nevada Commission on Postsecondary Education (NCPE)

Carrington College is required to report employment data to NCPE. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to NCPE in April 2017. NCPE required only summary data for graduates. A placement rate was not reported. Data was reported for all students who graduated between 01/01/2016 and 12/31/2016. Employment counts include all graduates who obtained in-field new employment. Employment data was based on the information available to Carrington College as of April 2017. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

New Mexico Higher Education Department, Division of Private Postsecondary Schools (NM HED)

Carrington College is required to report employment data to NM HED. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to NM HED in August 2017. NM HED required only summary data for graduates. A placement rate was not reported. Employment data was based on the information available to Carrington College as of July 2017. Data was reported for all students who graduated between 07/01/2016 and 06/30/2017. Employment counts include all graduates who were placed in new in-field employment appropriate for completed studies. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Oregon Higher Education Coordinating Commission- Office of Degree Authorization (OR HECC)

Carrington College is required to report employment data to OR HECC. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to OR HECC in August 2017. OR HECC did not define a placement rate methodology so Carrington College's methodology was used. Employment data was based on the information available to Carrington College as of August 2017. The denominator of the rate was defined as all students who graduated between 9/1/2015 – 8/31/2016, not counting those who entered another postsecondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who were employed in an occupation for which they were trained by the program, and includes both new and existing employment. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Texas Higher Education Coordinating Board (THECB)

Carrington College is required to report employment data to THECB. Carrington College does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. Carrington College neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to THECB in December 2016. The placement rate was calculated according to the methodology prescribed by Texas Workforce Commission (TWC). Employment data was based on the information available to Carrington College as of November 2016. The denominator of the rate was defined as all students who graduated between 09/01/2015 and 08/31/2016, not counting those who entered another postsecondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who had existing in field employment or found new in field employment. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.
