PHARMACY TECHNOLOGY

CARRINGTON COLLEGE

About This Program

The Pharmacy Technology program provides both theory and practical training, which enables technicians, upon licensure, to function as a competent entry-level assistant to a licensed pharmacist. Graduates are eligible and prepared to sit for the national certification exam through either the National Healthcare Association (NHA) which administers the EXCPT exam or the Pharmacy Technician Certification Board (PTCB) which administers the CPhT exam.[1]

Careers in Pharmacy Technology[2]

Pharmacy technicians receive and fill prescriptions under the supervision of licensed pharmacists. Duties related to the daily operation of the pharmacy are often part of the job, such as answering phones, creating prescription labels, maintaining patient profiles and prescription histories, completing cash register transactions, preparing insurance claim forms and inventory tasks.

Pharmacy technicians' career path can lead to employment[3] in a variety of health care environments such as:

- Pharmacies and drug stores
- Hospitals
- Grocery and retail stores

Certification, Licensure and Practice Information

States vary in terms of certification, licensure and scope of practice for pharmacy technicians. Generally students must register with their state's Board to become a pharmacy technician in- training. Timeframes for completion vary by state, but all states require that pharmacy technicians attain licensure.

Knowledge and Skills

Upon completion of the Pharmacy Technology program, graduates will be able to:

- Prioritize the skills and knowledge necessary to function as a competent entry level technician to a licensed pharmacist.
- Utilize safe practice techniques in all aspects of pharmacy technology.
- Demonstrate ethical behavior consistent with state laws and regulations.

Accreditation and Disclosures

Carrington College is accredited by the Accrediting Commission for Community and Junior Colleges, 428 J Street, Suite 400, Sacramento, CA 95814, (415) 506-0234, an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education.

Additional information about accreditation, including the filing of complaints against member institutions, can be found at **accjc.org.**

For comprehensive information on Carrington College's accreditation and approvals, visit **carrington.edu/accreditation.** For information about student outcomes visit **carrington.edu/sci.** Program availability varies by location. Carrington College reserves the right to update information as it becomes available. For the most up to date information, visit **carrington.edu.**

Coursework

In the Pharmacy Technology program students gain basic knowledge of pharmacy calculations, drug distribution systems, chemical and physical characteristics of drugs and preparation of sterile dosage forms as well as a thorough knowledge of pharmaceutical and medical terminology, abbreviations and symbols used in prescribing, dispensing and documenting medications. Standards of ethics and law as they pertain to pharmacy practice and drug distribution methods are also included in the curriculum.

Online certificate: All courses in this program are offered in an online format, except the in-person externship that is completed at an approved healthcare setting.

Carrington College's academic catalog, available at **carrington. edu/catalog**, provides the most current and detailed program information, including admission and graduation requirements.

The program culminates in a Certificate of Completion.

[1]Carrington College prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program. Credential preparation varies by location.

[2]Individuals seeking to enter this career field may be subject to screenings such as, but not limited to, criminal background checks and drug/alcohol testing prior to externship, to attain occupational licensure/certification or employment, and throughout their careers.
