

# Pharmacy Technology

PLEASANT HILL CAMPUS  
CERTIFICATE OF ACHIEVEMENT/  
ASSOCIATE OF SCIENCE DEGREE

## About The Campus

Carrington College's Pleasant Hill campus occupies 28,000 square feet and is housed in four buildings. Less than two minutes from downtown Pleasant Hill, the campus is close by to dining, shopping, and entertainment experiences. And if you enjoy the outdoors, John Muir National Historic Site, Mt. Wanda and Briones Regional Park are all less than 10 minutes away.

The facilities include eight lecture/laboratories, a veterinary lab and surgery room, and labs for Physical Therapist Assistant and Respiratory Care programs. The campus also has a Student Success Center equipped with reference materials, textbooks and journals; a student break room; and a learning lab. The Carrington library website offers online resources and professional organization information.

## About This Program

The Pharmacy Technology program provides both theory and practical training, which enables technicians, upon licensure, to function as a competent entry-level assistant to a licensed pharmacist. The program culminates in a Certificate of Achievement or an Associate of Science degree. Graduates are eligible and prepared to sit for the Certified Pharmacy Technician (CPhT) national certification exam<sup>1</sup>.

## Careers in Pharmacy Technology<sup>2</sup>

Pharmacy technicians receive and fill prescriptions under the supervision of licensed pharmacists. Duties related to the daily operation of the pharmacy are often part of the job, such as answering phones, creating prescription labels, maintaining patient profiles and prescription histories, completing cash register transactions, preparing insurance claim forms and inventory tasks.

Pharmacy technicians' career path can lead to employment<sup>3</sup> in a variety of health care environments such as:

- Pharmacies and drug stores
- Hospitals
- Grocery and Retail stores

## Certification, Licensure and Practice Information

States vary in terms of certification, licensure and scope of practice for pharmacy technicians. Generally students must register with their state's Board to become a pharmacy technician in-training. Timeframes for completion vary by state, but all states require that pharmacy technicians attain licensure<sup>1</sup>.

Graduates of the Certificate of Achievement program who reside within the State of California are eligible to complete the Associate of Science degree program via the online degree-completion option.

<sup>1</sup> Carrington College prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program. Credential preparation varies by location.

<sup>2</sup> Individuals seeking to enter this career field may be subject to screenings such as, but not limited to, criminal background checks and drug/alcohol testing prior to externship, to attain occupational licensure/certification or employment, and throughout their careers.

## Knowledge and Skills

Upon completion of the Pharmacy Technology program, graduates will be able to:

- Demonstrate the skills and knowledge necessary to function as a competent entry level assistant to a licensed pharmacist
- Demonstrate the ability to apply critical thinking, work collaboratively, communicate clearly and act professionally

## General Education Coursework

Students in Carrington College's certificate programs complete technical coursework and participate in an online career development seminar course.<sup>3</sup> In Carrington College's degree programs, students also complete a broad base of general education course offerings focusing on:

- English Writing and Composition
- Computer literacy
- Mathematics
- Science
- Social sciences

## Technical Coursework

In the Pharmacy Technology program students gain basic knowledge of pharmacy calculations, drug distribution systems, chemical and physical characteristics of drugs and preparation of sterile dosage forms as well as a thorough knowledge of pharmaceutical and medical terminology, abbreviations and symbols used in prescribing, dispensing and documenting medications. Standards of ethics and law as they pertain to pharmacy practice and drug distribution methods are also included in the curriculum.

Carrington's academic catalog, available at [carrington.edu/carrington-college/catalog](http://carrington.edu/carrington-college/catalog), provides the most current and detailed program information, including admission and graduation requirements.
